

I am concerned with the issue of LPFM broadcasters taking priority over current FM translator service, specifically K-LOVE radio stations. K-LOVE is the only radio station that I am aware of in Tucson, AZ that plays contemporary Christian music. It is also a radio station that is safe for listeners of all ages and provides an encouraging message. If K-LOVE were to be taken off the air there would be no place to turn for safe music and programming, and Christians would be denied the right to listen to Christian music on the radio. Please don't let this happen.
